

SMART P DETECTORS

Certified parking detectors

SMART P-2

SMART P-1

- Electrochemical cells for CO and NO₂ detection
- Catalytic sensor for petrol vapours
- RS485 serial output
- P2 version for two gas detection

SMART P detectors meet the European Standard EN50545-1.

sensitron

SMART NC DETECTOR

Parking detector

- Detector available for CO, VB and NO₂
- Standard 4-20mA signal on 3 wires
- Optional 3 relay board

SMART3 NC gas detectors are rated to IP55

sensitron

MULTISCAN ++ PARK

Certificated control panels

RACK version
19" M

Box ABS

- Up to 2 galvanically isolated RS485 closed/4 open loops
- Support of up to 256 sensor inputs in 4-20 mA or directly on RS485 loop
- Maximum 512 o/c outputs freely programmable on remote modules (optional relay board) and 8 (6) on-board relays

MULTISCAN++ PARK control panels
control panels comply with European Standard EN50545-1.

sensitron

Gas detection in underground garage

Sistem:

- SMART P2 for VB and CO
Certified European
Standard EN50545-1
- MULTISCAN++PK
